ABOUT JPOXY

Jpoxy Polymers is a leading manufacturer of specialty liquid Epoxy systems in Gujarat. Jpoxy Polymers provides specialty coatings, composites, adhesives and grouts for a wide variety of application in industry such as coating & construction, marble & stones, gems & jewelry, engineering & electronics and tooling & adhesives. We have our manufacturing and R&D facilities at Moraiya near Ahmedabad (Gujarat), India.

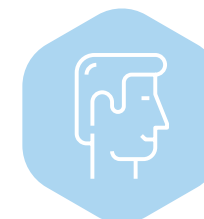

VISION

To deliver value to all our stake holders by providing world class, sustainable and innovative solutions based on epoxy systems.

MISSION

To delight our stakeholders with innovative and collaborative epoxy systems in a win-win approach by combining the strengths of our expertise.

To excite our customers and their customers by delivering beyond their expectations by walking the extra mile so that they achieve their business goals.

To be guided by the framework of our core values, we aspire for value creation to all our stakeholders and community.

OUR DRIVERS

Consultative Approach

First to introduce epoxy to many clients.

Technical Expertise

Strong understanding of products and their application.

Relationship Driven

Long, recurring business relationships with most customers. High retention rates.

Excellent Service

Competitive pricing and timely deliveries.

Strong Governance

Robust business management practices.

OUR PRODUCT RANGE

Specialty Epoxy Adhesives

Jpoxo Polymers manufactures a wide range of specialty two component epoxy adhesives. These adhesives are designed to meet the specific requirements of our customer such as mechanical performance, flow, curing time, mixing convenience and pigmentation. These specialty epoxy adhesives are convenient to use and provide the perfect strength required for a reliable performance.

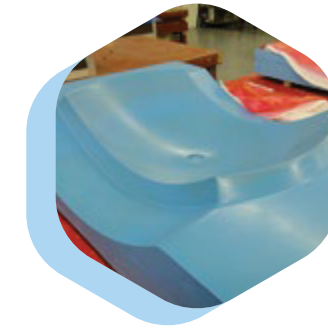

Epoxy Repair Mortar & Screeds

Jpoxo Polymers offers a wide range of two/three component epoxy repair mortar and levelling screeds suitable for concrete surfaces, industrial floors, concrete roads, heavy industries, chemical spillage & sea water exposed areas.

Epoxy Pigment Paste

Jpoxo Polymers offer solvent free easily dispersible epoxy pigment pastes useful in epoxy adhesives, putties, floorings, potting and coating applications.

Epoxy Tooling & Composites

Jpoxo Polymers offers a range of gel coat, laminating systems and casting resins for epoxy tooling & composite application. These specialty epoxy systems form an ideal lay-up tools for prepregs, master models, negative models and foundry patterns for foundries and ceramic industry.

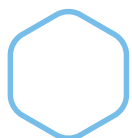

Epoxy Grouts

Jpoxo offers a wide range of tile grouts, machine foundation grouts and injection grouts for decorative, chemically resistive, dynamic load bearing structures and structural repairs. These systems have been designed to suit industry specifications for requirements such as mechanical & physical performance & application processes

Epoxy Floorings & Coatings

Jpoxo epoxy based flooring provides consistent, reliable heavy-duty service in structures ranging from hospitals, pharmaceuticals, chemical, automobile & heavy engineering facilities. Jpoxo floors are joint-less colored floors offering good aesthetics, excellent wear and chemical resistance and a dust free environment. A wide range of Jpoxo flooring systems is available to suit different needs such as aesthetic, decorative, chemical resistance, application on under prepared surfaces, curing time, varying weather conditions etc. We also offer specialty epoxy systems for marble coatings.

OUR DIFFERENTIATORS

World Class Products

All our products stand high on all quality parameters. Our products are continuously tested and retested for their properties and suitability to ever changing application scenario.

Customized Solution

With a clear focus on innovation, Jpoxy Polymers provides customized epoxy system solutions to its customers to suit in-process requirements and desired finished properties for client's specific application.

Brand Trust

Our customers show confidence that our brand has an ability to deliver on what it promises.

Business Focus

Over the years, we have built a reputation for ourselves in the epoxy industry for our high-quality products, dependable services, providing solutions to clients from various industries and ability to accept new challenges and opportunities.

Consistent & Reliable Quality

Our focus on quality is evident in our product range and performances. Our team of quality control analysts undertake stringent quality control measures in sourcing, process & finished goods testing to ensure world class product quality.

Customer Retention

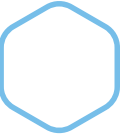

Customers are happy with us, and we have long-term customer retention due to our service quality. Regular repeat orders from most customers indicate that they are satisfied with our product quality and service.

Quick Service Turnaround Time

Our wide range of products are serviced by maintaining adequate inventories, dedicated logistics and on demand production processes with a very quick turnaround time.
